Quartz Wall Clock 2187 Silver

Features

- 420mm silver finish plastic cased wall clock with shatterproof front lens
- white dial with 12 hour markings and minute track printed in black
- fitted with a silent quartz battery movement with sweep second hand
- mains power supply option available
- dimensions 420mm diameter x 55mm deep
- weight 1050gm
- Viewing distance up to 50 metres

Care and maintenance

We advise the clock to be wiped down with a clean slightly damp cloth at least with every summer/wintertime change and that a battery change is factored in on one of those occasions.
